RICHARD HARP CONSTRUCTION

The difference is in the details with Richard Harp, whose unique design-build process makes building or remodeling your dream home a pleasant experience

NAME: Richard Harp Construction **OWNER:** Richard Harp

TRADEMARKS: Richard works very closely with his clients while offering exceptional service during and after the project. His education in finance brings a solid perspective to the estimating, cost analysis and budgeting phase of his unique design-build process. With impeccable honesty and undeniable fairness, Richard takes great pride in high quality craftsmanship, cost-conscious construction and solid structural integrity. Blending energy efficient architectural design, advanced project management and his signature quality construction, he ensures the creation of your special home.

Achieving your vision while exceeding your expectations is his forte.

HISTORY: Richard holds a Bachelors degree in Finance and an M.B.A from the University of Arkansas. He is a professional member of the Home Builder's Association having served as President of both the Greater Little Rock and the State Associations. In 2010, Richard was a co-builder of the first Arkansas home built with the Gold designation of the National Green Building Standard. Richard holds both the Graduate Master Builder and the Certified Green Professional designations along with 17 years construction management experience. **DESIGN ADVICE:** Richard guides his clients through the GreenBuilt process to create a home that ensures energy efficiency, water and resource conservation, indoor environmental quality and site design in addition to providing homeowner education.
