RICHARD HARP HOMES

A local builder uses his finance-savvy background to save money without sacrificing quality

NAME: Richard Harp Homes, Inc. **OWNER:** Richard Harp

TRADEMARKS: Richard's basic business philosophy uses a balanced approach with a foundation based on construction quality, schedule management and budget control. Harp takes great pride in the high quality craftsmanship, cost-conscious construction and solid structural integrity produced by himself and his team of trade partners, as this skilled group of craftsmen, vendors and mentors all contribute to the happiness of his clients. His unique Design-Build approach streamlines the process of designing and building your home while eliminating wasted time and money without ever sacrificing quality. Blending energy efficient architectural design, advanced project management and his signature quality construction, he ensures the creation of your special home. **HISTORY:** With 18 years of experience building homes in Arkansas, Richard Harp Homes, Inc. has completed more than 120 new homes. Richard currently serves as president-elect of the Arkansas Home Builders Association and holds a number of designations with the National Association of Home Builders, including Master Certified Green Professional, Graduate Master Builder, Certified Graduate Remodeler and Certified Aging in Place Specialist. In 2010, Richard was a co-builder of the first Arkansas home built with the silver designation of the National Green Building Standards. **DESIGN ADVICE:** Homeowner education is the key to designing, building and maintaining a quality custom home. Better education often equals better decisions and better decisions often equal happier homeowners.
